Contents of Volume 9 1991/1992

Number 1 1991

Instructions to Authors iv
Newsline 1
Calendar 3

T. McGill-Taylor, C.R. Brooks, and S. Goodrich
Effect of Cold Working and Annealing on Mechanical Properties and Microstructure of Hot Rolled Al Alloy 3104 5

K.A. Erven, D.K. Matlock, and G. Krauss
Effect of Sulfur on Bending Fatigue of Carburized Steel 27

G.E. Hicho, L.C. Smith, C.A. Handwerker, and D.A. Kauffman
Determination of the Prior Austenitic Grain Size of Selected Steels Using a Molten Glass Etch 37

Y.-S. Yang and S.J. Na
Effect of Transformation Plasticity on Residual Stress Fields in Laser Surface Hardening 49

A.K. Panda, R.I. Garguly, and S. Misra
Optimal Treatment Combination for Maximum Response in the Strain Aging of a Dual-Phase Steel 57

J. Prohászka and J. Dobránsky
Technical Note: Quality Improvement of Low Carbon Reinforcing Steel by Rapid Heat Treatment 63

Number 2 1992

Instructions to Authors iv
Announcements 69
Calendar 71

J.D. Verhoeven, N. Chen, and A.J. Bevolo
A Scanning Auger Microscopy Characterization of the Internal Oxidation Produced on Carburizing 73

G. Krauss
Advanced Surface Modification of Steels 81

W.P. Klinzing, J.C. Rozzi, and I. Mudawar
Film and Transition Boiling Correlations for Quenching of Hot Surfaces with Water Sprays 91

L. Sproge and J. Slycke
Control of the Compound Layer Structure in Gaseous Nitrocarburizing 105

Y.C. Chen and G.S. Lu
Carburization of Steels in a Circulatory System Using Water–Gas Atmospheres 113

P.P. Sinha, K. Sreekumar, N.S. Babu, B. Pant, A. Natarajan, and K.V. Nagrajan
Development of Heat Treatment Parameters to Improve Fracture Toughness and Grain Size of an Embrittled Maraging Steel 125

Index to Volume 9 133

Indexed in *Metals Abstracts*, *Engineered Materials Abstracts*, and *World Aluminum Abstracts*
